

West Demetrio
Quemado Ranger District
2016 Annual Operating Instructions
(12/11/2015)

As per your Annual meeting held with Emily Irwin and Wayne Witty, please see the following instructions and utilize these as direction for management on your grazing allotment during the 2016 Grazing Season. We appreciate your cooperation in the management of your livestock throughout the grazing year.

2016 Pasture Rotation:

Pasture	From	To	Numbers	Allowable Use
Aspen Springs	03/01/16	09/30/16	*20 Cow/Calf	35%
Cabin Springs	10/01/16	02/28/17	*20 Cow/Calf	40%

* The West Demetrio allotment is not fully stocked at this time. The District and the Permittee have an MOU describing a re-stocking plan that will take place over the next 4 years. When additional livestock are purchased please inform the District Office prior to placing them on the Allotment.

Allowable Use:

Proper utilization of forage plants is a necessity to maintain long term productivity of the rangeland and to protect soils from erosion. Proper utilization will maintain sufficient ground cover to prevent erosion and meet the physiological needs of key forage plants for maintenance and reproduction over the long term. Allowable use is determined from considering proper use and all influencing factors such as grazing system, range condition, watershed condition, timing and duration of livestock use and scheduled amount of rest between use periods.

The Decision Notice dated 12/13/1999 dictated 40% allowable use during the dormant season, (Oct. 1st – Mar. 30th) and 35% allowable use during the growing season, (Apr. 1st – Sept. 30th) annually.

In addition, allowable use levels were established for riparian woody species with no more than 25% of the riparian sprouts/seedlings within riparian areas.

Utilization Monitoring:

Utilization monitoring will be conducted on or near key areas of your allotment. District personnel will monitor pasture use and determine utilization percentage at that time. Monitoring dates will be set according to the previous year's monitoring results. If pastures were approaching allowable use during the 2015 grazing season they will be monitored at the mid-point of the pasture use period to determine if it was necessary for livestock to be moved to the next pasture in the rotation. Please note the following approximate dates that are scheduled for

monitoring on the West Apache Creek Allotment. You are encouraged to participate in monitoring utilization levels.

2016 Monitoring Dates:

Pastures	Monitoring Dates
Aspen Springs	06/08/16, 10/12/16
Cabin Springs	12/14/16, 02/21/17

If any one key area in a pasture being grazed by livestock exceeds utilization on the uplands or heavily hedging of woody riparian plant sprouts/seedlings, livestock will be moved to another area of the pasture where actual use is less than allowable use. If all remaining key areas in the grazed pasture are at allowable use, livestock will be required to be moved early to the next scheduled pasture. This requirement is necessary to prevent overuse on forage plants.

Forage Growth and Water Availability: If forage growth and water availability are not adequate during all or portions of 2016, total or partial livestock removal from the allotment may be necessary. Part 2, clause 8(c) of the permit provides this option.

Range Improvements: All assigned range developments identified in the Term Grazing Permit will be maintained to a functional status.

Follow up Items from AOI Meeting:

Demetrio Pasture Well – The District will research possible Categorical Exclusions for an extension of the existing water system. A field day will be necessary to examine the proposed routes of the new pipelines. A meeting will also need to be held with the NRCS to discuss possible funding to re-drill the well.

New Gate – When funds become available the district will look into purchasing a new gate.

Memorandum of Understanding – The District will put together a MOU that covers the points discussed at the AOI meeting. Wayne will schedule a meeting to review and sign the document.

If you have any questions or comments concerning these Annual Operating Instructions, please do not hesitate to call Wayne Witty at (575) 773-4678.
